Overall Assessment

Your Organization has an overall readiness score of 47/100 (Needs attention). The highest priorities are reviewing stale user accounts, reclaiming licenses from inactive accounts, and reviewing or disabling stale administrator accounts. Addressing these items could reduce estimated annual license waste by \$3,49,36,644, while improving security posture and identity governance.

No backend of ours is involved — pasted CSVs never leave your browser, and Google Workspace or Microsoft Entra ID sync (if you use them) talks directly to Google or Microsoft using your own OAuth credentials.
